

IRFAN AHMAD

Software Engineer (Entry-Level)

✉ irfan.2kahmad@gmail.com ☎ +918918612491 📍 Asansol, India 🌐 GitHub 🔗 LinkedIn

PROFESSIONAL SUMMARY

Entry-level software engineer with working knowledge of Python, Flask, SQL, and core CS fundamentals (OOP, DSA basics). Completed backend and ML-integrated projects connecting databases and frontend forms. Enthusiastic about learning, problem-solving, and contributing to real-world software solutions.

EDUCATION

Asansol Engineering College, MCA CGPA: 8.8	2023 – 2025
Asansol Engineering College, BCA CGPA: 8.9	2020 – 2023
Assembly Of God Church School, Sodepur, 12th (Intermediate) Percentage: 68.3	2019
Assembly Of God Church School, Sodepur, 10th (Matriculation) Percentage: 80.8	2017

SKILLS

Programming & Core Concepts: Python, OOP, Basic DSA

Backend & Databases: Flask, SQL (relational databases), MySQL, CRUD operations

Frontend & Web Tools: HTML, CSS, Tailwind CSS, Basic JavaScript

Tools & Platforms: Git, GitHub, Postman, VS Code, Google Colab

PROJECTS

Medi-Matrix: Disease Prediction System [🔗](#)

- Developed a Flask-based web app to predict diseases from user input symptoms.
- Preprocessed dataset and trained multiple ML models; deployed the best-performing model for real-time predictions.
- Connected frontend form inputs to backend logic to display dynamic results.
- Organized project into modular components for maintainability.

Diverse-Delights: E-Commerce Web Application [🔗](#)

- Built a Flask-based full-stack-e-commerce web app using SQLAlchemy (SQLite database).
- Implemented user authentication, product browsing, cart management, and order placement.
- Integrated Razorpay payment gateway and handled order confirmation.
- Organized code using an MVC-inspired structure (models, routes, templates).
